Wendover Air Force Base,  
Airmen's Dormitory  
(Building No. 2612)  
HABS No. UT-125-NNN JN  
Page 1

This building is nearly identical in appearance to buildings 2606, 2617 and 2638 but is actually identical in floorplan to buildings 2621, 2626 and 2642. Built in 1943, this is a "Mobilization," "Semi-Permanent" type structure. Available records indicate no other use for the building.

Building 2612 has a rectangular plan measuring 25 feet by 150 feet-6 inches with an 8-foot-10-inch-by-59-foot-10-inch offset along the east wall. Containing 4,278 square feet, it was built at a cost of \$8,600. It is situated between buildings 2606 and 2617. Like its neighbors, this building has a concrete foundation, wood frame floor and walls, a gabled roof with composition shingles, and horizontal wood siding. The windows are 6/6 double-hung sash units and the doors have horizontal wood panels. Three large, louvered roof vents sit atop the ridge. The offset has vertical siding and a shed roof.

The interior plan has a long, central room plus a small room at the north and nine small rooms at the south, all flanking a central corridor. The building has showers and restrooms. The building seems to be in good structural condition.
